## Spotlight 4.0

### SMD Aluminium Torch

For nearly 10 years, **BOKER's** technical specialists have been developing an innovative idea – A **robust, low consumption, durable, German Made** torch fitted with **SMD technology** and other high quality components.

SMD lighting technology (sometimes also known as SMT) is a type of low profile LED that is surface mounted to a Circuit Board. These type of LEDs are very powerful and are the latest in LED technology.

#### Manufactured with the highest quality components, including:

- Cree® LED Chips - Lifetime of 50,000 hours
- Avago® Torch Lens - 6° radiation angle for greater focus
- Fluorescent Material (Head & Base) by Everglow

Art. 3040

Weight - 444 g

350 Lumens

8000 Lux

Size - 40 mm Ø x 217 mm

Uses 3x 'C' Cell Batteries

Batteries Included

IP67 Water Resistant (3 m)

60 hour Battery Life

CREE LED Chips

4.0 Watt LED Torch

300 m Effective Range
